For His Contest With Jerry McCarthy Next Mouth-Two Ball Games Spoiled by Rain.

The track meet between the teams from the Boulder University of Colorado and the University of Utah, which was scheduled for last Saturday, but continued un til this afternoon on account of rain, has been postponed until tomorrow afternoon for the same reason, rain-and more rain. The meet could have been pulled off

this afternoon but the field would not have been in the best condition and the contestants could not have done themselves full justice. Athletic Instructor Harvey Holmes said that had the meet taken place today the public might not have been given the kind of a race it is entitled to. It is his desire, and the desire of the local team, to make this event the

entitled to. It is his desire, and the desire of the local team, to make this event the chief one of the year, and they want the chief one of the year, and they want the conditions to be the very best.

The contests will begin at 2 o'clock tomorrow afternoon and will be run off as rapidly as possible in order to give the visitors a chance to catch the 6:30 train for Colorado. The events and the contestants will be as follows:

400-yard dash—U, of U, Rideout, Butler; U, of C., Leavitt, Coan.
Shot-put—N. of U., Steffenson, Bennion; U, of C., Bell, Rubidge.

CHALLENGE TO THOMPSON. Likely to be Something Doing in Wrestling Game.

Sporting Editor, "News:" Prof. Eugene Thompson, who claims to be champion of Utah, who was given a guarantee of 350 upon demand to meet George C. McLaughlin in a wrestling match at the Grand theater last month, is hereby challenged to meet a wrestler I will produce who will weigh 10 pounds less than Thompson—either in private in his own rooms, or in public; a guarantee of 3100 in case he will go in public; and I furthermore agree that in case my man fails to throw Thompson three times in 30 minutes he is to get 60 per cent of the gross gate receipts if he will consent to go in public. If a private meeting is desired I will give Thompson \$50 in case my man fails to throw him the stipulated three times in 30 minutes. In case of a private meeting 25 invited guests are to be present, and they can choose a referee to decide the contest. I have issued this challenge to show the public just where I stand on the matter. G. C. McLaughlin is not the mar.

HOME RUN HIT.

Jimmy Ryan Went from Staten Island to Liverpool.

Island to Liverpool.

"The longest hit on record was one which carried the ball from Staten island to Liverpool, though the wide Atlantic rolled between," said "Jake" Beckley.

"Chicago was playing New York one day in 1830. The One Hundred and Tenth street park of the New York team had been ruined by the opening of the street, and temporarily a park had been built on Staten island, right on the shore of the bay. The center field, in fact, was built on boards over the water, and the man who fell out of the center field bleachers had nothing before him but an ignominous death in the ocean.

"With the score a tie in the last inning, Jimmy Ryan came to bat. He hit the ball out over the center field fence into the vasty deep.

"Ryan's hit and his ensuing home run were forgotten, when one day, a month later, he got a letter and small speckage.

"Ryan's hit and his ensuing home run were forgotten, when one day, a month later, he got a letter and a small package by mail from Liverpool. The writer said he had sailed for Europe the day of the ball game, and had been struck by the ball as he stood on the deck of the liner. After he got to Liverpool he read an account of the game in the New York papers and concluded that he had found the missing ball. Ryan still has the much-traveled sphere to show as proof of his holding the record on long hits."

TRADE UNIONISM.

Miners' Counsel Darrow Tells Where Members Make Their Mistake. Chicago, May 24.-Clarence S. Dar-row, who was chief counsel for the miners in the recent arbitration, de-livered an address here today on "The Perils of Trades Unionism." The gen-eral tone of his talk was that labor unions do not understand the principles upon which they are founded, and along which they must work if they are to continue in existence. He saki

in part:
"Men catch trade unionism, speculation, combination, as they catch the measles or the mumps. Capital has caught the fever of combination until it has gone mad over corporations and trusts. Likewise, labor has caught the fever of trade unionism without knowfever of trade unionism without know-ing what it means or realizing how it may be of real service to the world, and has turned its power and energy in the direction of building up organizations. Unless this force is turned to political power or turned to substantial methods for bettering industrial condi-tions, then all this great movement must be for naught."

THE FRIAR LANDS.

Question of Their Purchase Grows More Complicated.

Rome, May 23.—Reports received from the Philippines say that in spite of the good intentions of both Archbishop Guidi, the apostolic delegates, and Gov. Taft, the question of the purchase of the friar lands is growing more complicated because of the chorts of the friars, especially the Dominicans, to conceal their possession of a large part of the shares in companies purposely formed as to apsion of a large part of the shares in companies purposely formed as to appear as the owners of the land. The provincial orders are helping the friars in this, thus disobeying the instructions which the pope sent to Archeishop Guidi through Cardinal Rambulls and nutting Archeishop Guidi in polla, and putting Archbishop Guidi in

an embarrassing position.

The reports state if the situation remains unchanged it is probable Gov.

Paris May 24.-Reports from along the route of the great Paris-Madrid automobile race are to the effect that previous hand of death appears to have intervened in a lew inscances and a cloud has been dents. In one case it is certain that the race has had a fatal result. It is esti mated that some automobiles covered 62 miles an hour on the road outside the cities. At least two cars were wrecked, and Marcel Renault, the winner of the Paris-Vienna race last year, and Lorrain Barrows, a very well known automobilist and Renault's chauffeur, were seriously, and it is believed fatally, injured, while Barrow's chaffeur was killed. Moreover, an unconfirmed report says that a serious accident occurred near Angouline, in which the two occupants of an automo bile, the owner of which is not yet known, were seriously injured and two spectators were killed. Another bomb was fired at a quarter to 4 o'clock for the start and then the enormous michine shot forward amid the shouts of the thousands of spectators. The other cars followed in quick succession.

Mme. De Gast, the sole female competitor in last year's Parls-Berlin race, was again the only woman to participate in the present contest. Her machine was decked with flowers and her departure was the signal for a great ovation. She made a spiendid run, passing five of her competitors before reaching Chartres. The crowd around Mr. Vanderbilt's machine prevented him from reaching the starting line in time and he was further delayed by a controversy with the Judges, finally starting two minutes late. The last departure was a quarter to seven this morning. The reports along the route soon showed that Louis Renault was making a great race and before Chartres was reached he had overtaken and passed Charles Jarrot, M. Renoe de Kynff, and gained a lead which he never lost afterward.

During the afternoon worl of the accidents began to arrive and cast gloom over the event. A dispatch from Bordeaux announced that Lorraine Barrows had met with a shocking accident near Libourne, 77 miles from Bordeaux, at a quarter to 2 this afternoon. It appears that Mr. Barrows had tried to avoid a dog which was crossing the track and his monster car, number five in the race, struck a tree with terific force. His chauffeur was killed outright. Barrows himself was picked up unconscious but still breathing and was taken to a hospital, where his condition was declared to be critical. His car was dashed to pieces. Shortly afterward news came that Marcel Renault has been overturned in a deep ditch beside the road near Coupe, 22 miles from Poictiors, and that he was dangerously injured.

Tarrytown, N. Y., May 25.—There was a mysterious affair involing the probable mortal shooting of a man near the Ardsley club at Ardsley last night. The wounded man is in the Dobbs' Ferry hospital in a precarious condition. A girl is being held pending the investigation of the authorities.

C. H. Hale, presdent of the club, was standing at the railroad station between 9 and 10 o'clock when he heard a shot fired up the road and not far from the clubhouse. While he stood wondering what had taken place a girl came running out of the darkness from the direction of the shot and tried to board a train as it started to move away. Mr. Hale restrained her.

The girl's story, which is partially corroborated, is that she went to meet John Hefferan. Hefferan met her at the Ardsley station and they started to make a call in Ardsley. They changed their minds and went and sat on a stone wall near the railroad tracks. While they were seated there, the girl says, a stranger came up suddenly, and
